Today's Agenda

- What is Google Photos?

Taking Better Pictures

**To Share with
Family and Friends**

Google Photos

**Google Photos announced
May 2015, reached one
billion installs, two years
after initial release**

Google Photos

**All the photos and
videos that you take
with your *smartphone* ...
or with your *computer*
can be easily uploaded
to Google Photos!**

Today's Agenda

- What is Google Photos?
- What are the benefits?

Google Photos

- What are the benefits?
- How does Google Photos work?

Mobile Phones and Computers

Smartphone Photo Sharing

Smartphones

**Photos are
inside the phone**

Install “Google Photos App” on your smartphone. Automatically copies phone photos and stores the photos in Google Photos *in the cloud*. Then you can delete photos from phone to free up space.

With Google Photos you can then create ALBUMS! Every album has a link, use the link to email and share your photos with family and friends

**Google Photos is free storage, and viewing.
Create, edit and share photos and albums.**

Camera Photos and Sharing

Cameras

**Photos on
Memory Card
inside the camera**

Share w/family & friends

Cameras

SD Memory Card w/photos is in the camera.

Use computer slot or USB SD card reader to copy photos into the computer

- USB – Memory Card Reader to Computer

Share w/family & friends

Cameras

Once Photos are in the Computer

- Organize as needed, by date and/or topic.
- Use “Google Photos Upload” or *Google Desktop Uploader* app to upload photos to Google Photos, in the cloud.
- As photos are uploaded, you can create **ALBUMS**.
- Edit and share photos and albums.

Let's take a look at Google Photos

The screenshot shows a Facebook album page for '2017 Wilfore Christmas'. At the top, there is a navigation bar with icons for back, share, and more options. A red callout bubble with the text 'More Options' points to the three-dot menu icon. Below the title, the date 'Dec 2-28' and the status 'Shared' are visible. A profile picture and a plus sign are shown below the title. The album contains three photos: a house at night with a lit Christmas tree, a car's navigation screen, and a dog in a car. A comment box at the bottom right says 'Say something'.

First to arrive from Atlanta was John, with a Buster who does not travel very well. Then Judi and Jason.

The screenshot shows a mobile gallery application interface. At the top, there is a navigation bar with icons for adding photos, comments, sharing, and a menu. A red arrow points to the share icon, which is labeled "Share Icon". Below the navigation bar, the album title "2017 Wilfore Christmas" is displayed, along with the date "Dec 2-28, 2017" and the status "Shared". A profile picture and a plus sign are visible below the album title. The main area of the screen shows three preview images: a house with palm trees at night, a car's navigation screen, and a French Bulldog in a car. At the bottom, there is a "Say something" comment bubble. The bottom dock of the phone shows various app icons and the system status bar with the time 9:23.

Demonstrate and Editing!

photos.google.com

One Shortcoming, for me

- Google Photos Search is good, convenient but a bit limiting - especially if you have a lot of albums.
- Wouldn't it be nice if you could get a complete list of your albums, in order with titles (and links)? That may be a feature in the future, but for now my recommendation is to build a simple spreadsheet.
- Let's look at the spreadsheet that I created. For me, this makes sharing my (404) albums very easy, very quick, and quite flexible!
