The Three Components of a PC

Memory

Holds active programs and data for use by the Processor. Size is measured in gigabytes, Takes about 10 nanoseconds to get something to the processor.

The permanent home of all your programs and data. HD takes about 10,000 nanoseconds to get something to the memory. SSD takes about 100 nanoseconds Task Manager tells you what is physically going on:

- 1. What program is using most of the CPU cycles
- 2. What program is taking up most of the memory and how much memory is available
- 3. How much information is coming from the disks and the network

Largest Effects on PC Speed

- 1. How often Storage is accessed (Size of Memory, # of active programs)
- 2. How often Memory is accessed (Size of processor cache, # of active programs)

The Most Important Specs for PC Speed

#3 - Number

and Cache size

Processor

Does all the computing. Speed measured in gigahertz 2 GHtz = .5 nanoseconds

4GB Memory Holds active programs and data for use by the Processor. Size is measured in gigabytes, Takes about 10 nanoseconds to get something to the processor.

#2 - More than

Storage The permanent home of all your programs

of all your programs and data. HD takes about 10,000 nanoseconds to get something to the memory. SSD takes about 100 nanoseconds to get something to memory.

New PC Spec Guidelines

Light User: email plus web plus some documents

Processor = Intel I3 or Ryzen 5, Memory = 8 GB, Hard Drive 500 GB

Economy User: email plus web plus watching videos plus home office work plus video conference (Zoom)

Processor = Intel I5 or Ryzen 5 or 7, Memory = 8 or 12 GB, SSD 256 GB

<u>Heavy User</u>: multiple email accounts, heavy office work, photo or video processing

Processor = Intel I7 I9 or Ryzen 7 or 9, Memory = 16 GB, SSD 500 GB

Laptops

"Clam Shell"

Screens : size 10 to 17 inch , touch or non touch Weight : 2 to 5 ½ lbs. Battery Life : 2 to 10 hours

Desktops

Size and Connections Separate purchase for Webcam **Speakers Monitor Best Specs for the price Easiest to upgrade** Most desktops sell with mouse & keyboard

All In Ones

Includes: Webcam **Speakers Monitor** Gets rid of a lot of cables. Touch and non touch screens **Prices have dropped due to** micro technology in laptops.

Light User: email plus web plus some documents
