

All Things Apple

Find My

July 12m 2021

Find My . . .

A proprietary program from Apple that CAN link all Apple devices

All Apple devices that share an Apple ID and use the iCloud can display where all the other Apple devices are that are using that ID

Easy way to find your lost 'phone'

It only works with Apple devices

You can 'share' Find My . . . among other Apple devices with permission

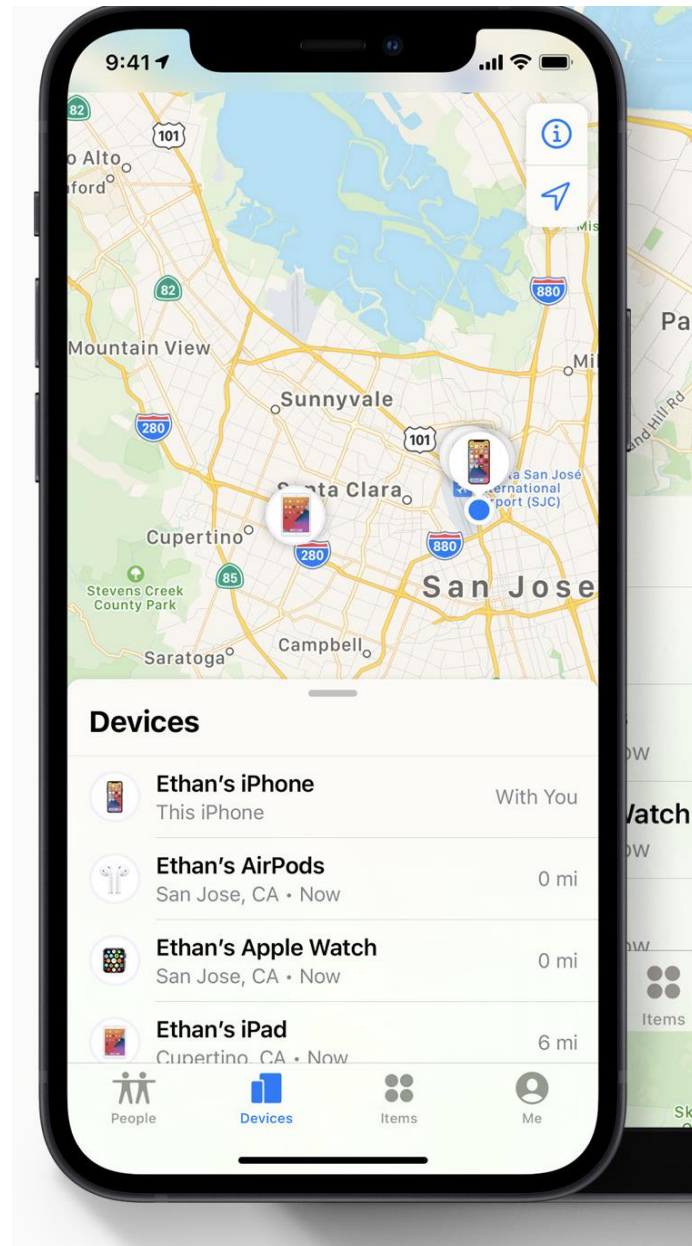

How It Works . . .

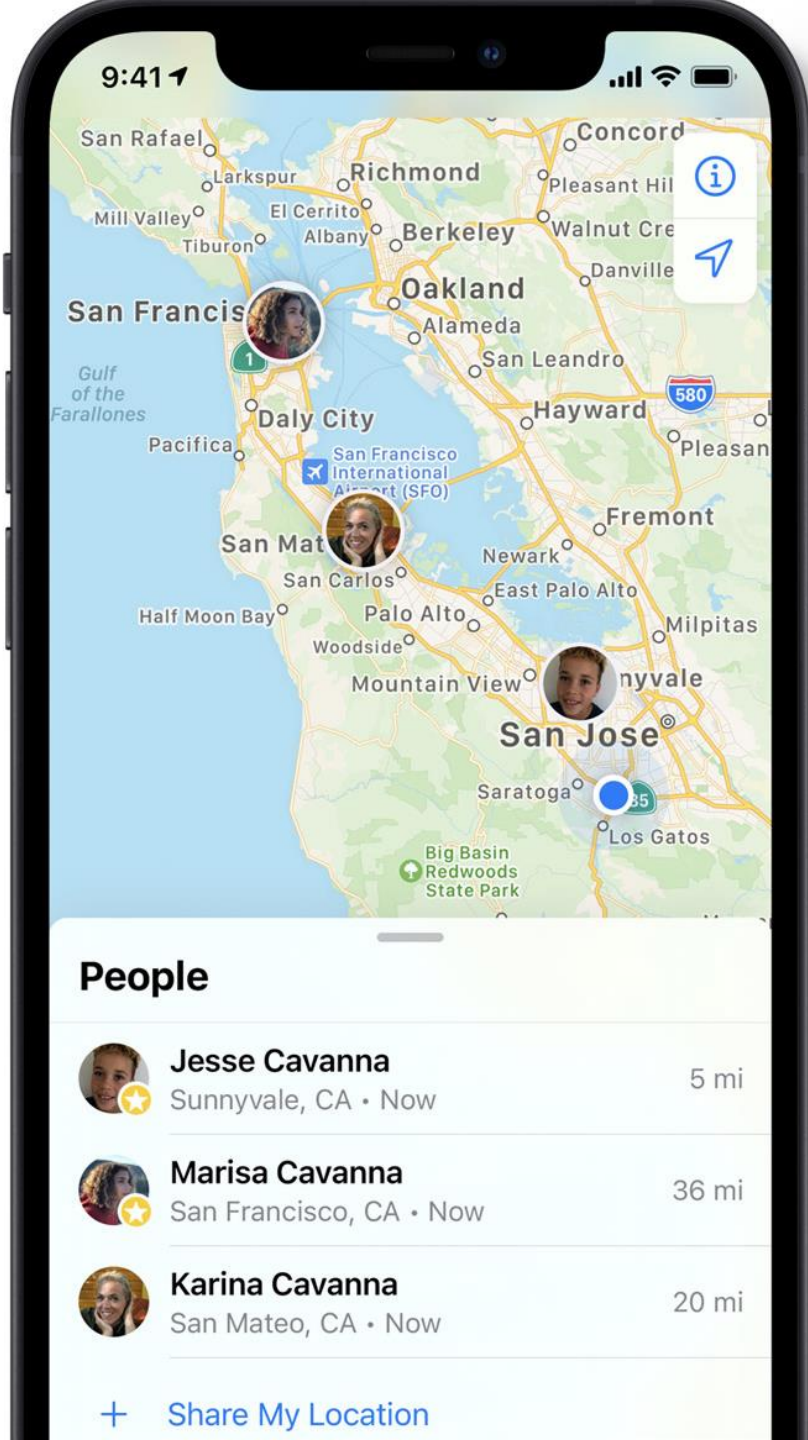

Share with people

1. Open the Find My app and select the People tab.
2. Select Share My Location or Start Sharing Location.
3. Enter the name or phone number of the person you want to share your location with.
4. Select Send.
5. Choose to share your location for One Hour, Until End of Day, or Share Indefinitely.
6. Select OK.

When you share your location with someone, they have the option to share their location back.

The Display

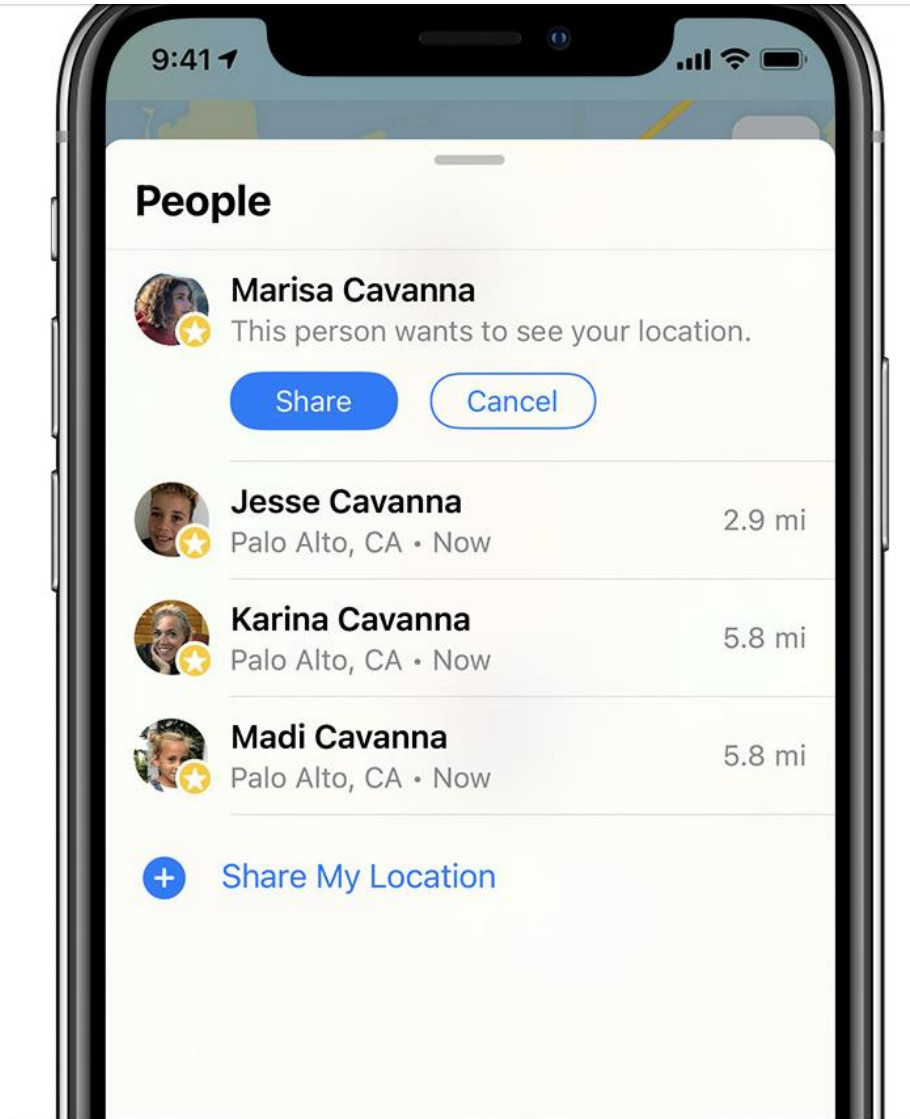

Following Others . . .

- You can locate multiple people
- You can share your location with others
- In order to do this though, a request needs to be sent and the receiving party needs to agree

The Request . . .

Benefits

Find

Find your lost or stolen devices

Inform

Inform others where you are and for how long

Learn

Learn where others are, especially when traveling, and for how long

Note

Note: My kids don't need to text me when they are at the Dublin Exit on I-16!
