

Choosing Your New Apple Device

Find What Fits Your Needs

Richard Wall & Steve Tunncliffe November 2023

Considerations

???

???

???

1. Functions & Ease of Use
2. Storage
3. Longevity (new vs. older model)
4. Portability / Travel
5. Screen size / Room Size (audio)
6. Price

Function:
What do
you want
to do?

	iPad	Mac	iPhone	Apple Watch
Email	*	*	*	*
Access Internet	*	*	*	*
Text	*	*	*	*
Take and Edit Photos	*	edits	*	
Documents	*	*	*	
Graphics	*	*		
Monitor Health	shows iPhone data		*	*

Storage

???

???

???

Find out how much storage you are using now.

Go to: *Settings > General > Storage*

Suggestion: If using half or less of total storage you can buy the same amount for your new device.

Storage

???

???

???

If using more than half: purchase enough to allow for future additions. (using iCloud storage helps lower what you need).

HHICC volunteers can help you determine your needs.

If you are considering buying either a current or an earlier model that is not currently sold through Apple it will be useful to go to [apple.com](https://www.apple.com) to use the [Compare Tool](#)

Apple does sell discounted refurbished devices that carry the same warranty as new...1 year.

View them at:

<https://www.apple.com/shop/refurbished>
