

Windows 11 Good Features! Time to Upgrade?

Features, 2022 Feature Update, Upgrade?
October 31, 2022

What We'll Cover

- Background on “Why Windows 11”
- Status of the “Why”
- Some Features of Windows 11
- Features of the Latest Update - 22H2
- Time to Upgrade?
- Some guidelines for buying now

Windows 11 Code Will be Optimized For

Windows 11 is optimized for:

- Qualcomm and AMD processors, as well as Intel processors
- TPM-2 Security

These two factors determine the “eligible hardware” for Windows 11

SOC technology from these companies can/will include 5G technology

(Big news last week Microsoft Surface Pro with 5G)

This does not allow “backward compatibility”

The Best Example of the “Reasons Why”

Released 10/27/2022

New! Surface Pro 9 with 5G – 13” Touch Screen – Microsoft SQ3 – 8GB Memory – 256GB SSD – Device Only (Latest Model) - Platinum (Unlocked)

Model: RU8-00001 **SKU:** 6517638

- Connect Anywhere
- 10 GB Download Speeds
- 25 Hour Battery Life
- Outstanding Video Calling/Conferencing

The Snapdragon 8cx (Microsoft SQ3) includes neural network AI and uses a 5nm process, becoming the first Windows PC processor to do so. AMD’s latest Ryzen processors currently use a 7nm node, while Intel’s 11th Gen mobile chips are still stuck on 10nm. Apple M2 is 5nm.

Qualcomm is putting a large focus on improving the quality of the webcam with this processor. (clean video/audio from a busy airport)

Transistor Density

What Features are in Windows 11?

- Windows 11 Features Very Similar to Windows 10
- Useability Improvements
- More Secure (Windows 11 Pro makes full use of TPM-2 on the processor)

The Basics Are Unchanged

If you know how to do it on Windows 10, You'll easily figure it out on Windows 11

- Program Windows
- Mouse protocols
- Desktop
- Taskbar
- Settings
- Start Button
- Etc.....

Snap Layouts – 2H22 Feature Upgrade

Grab window title bar and pull to top/middle of screen.

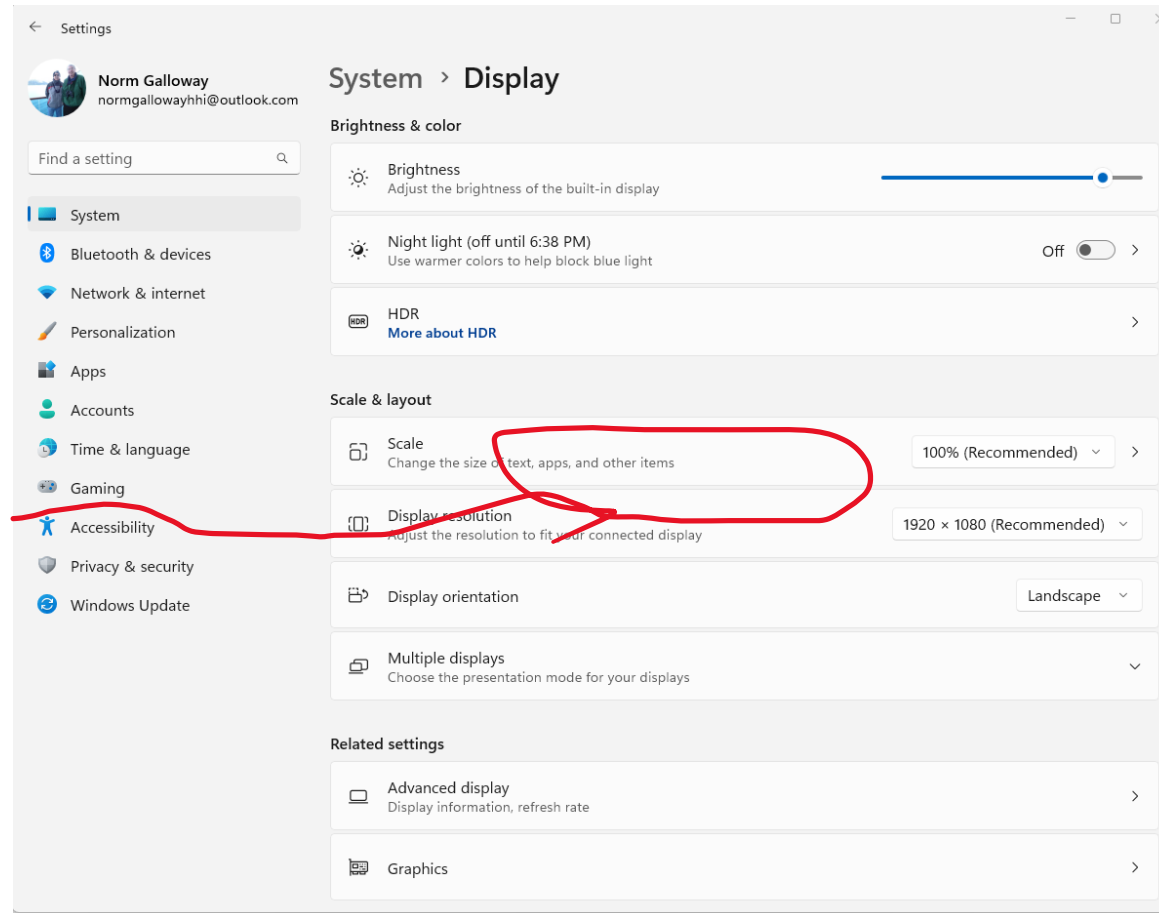

Widgets

Hover over the icon at the left edge of Task Bar

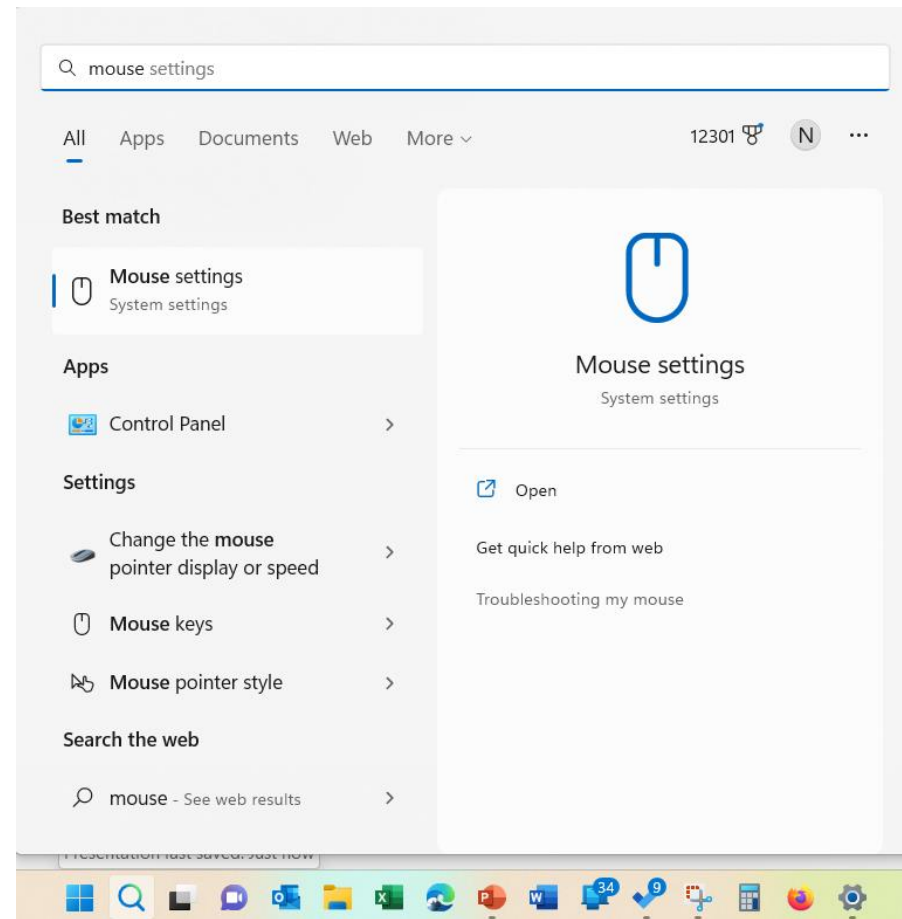

Setting to make screen easier to read

Many new laptops have very high resolution screens. This makes their text and images very tiny and hard to read. Go to Settings/System/Display and you can “Scale” the screen display to make images and text readable for your eyes!

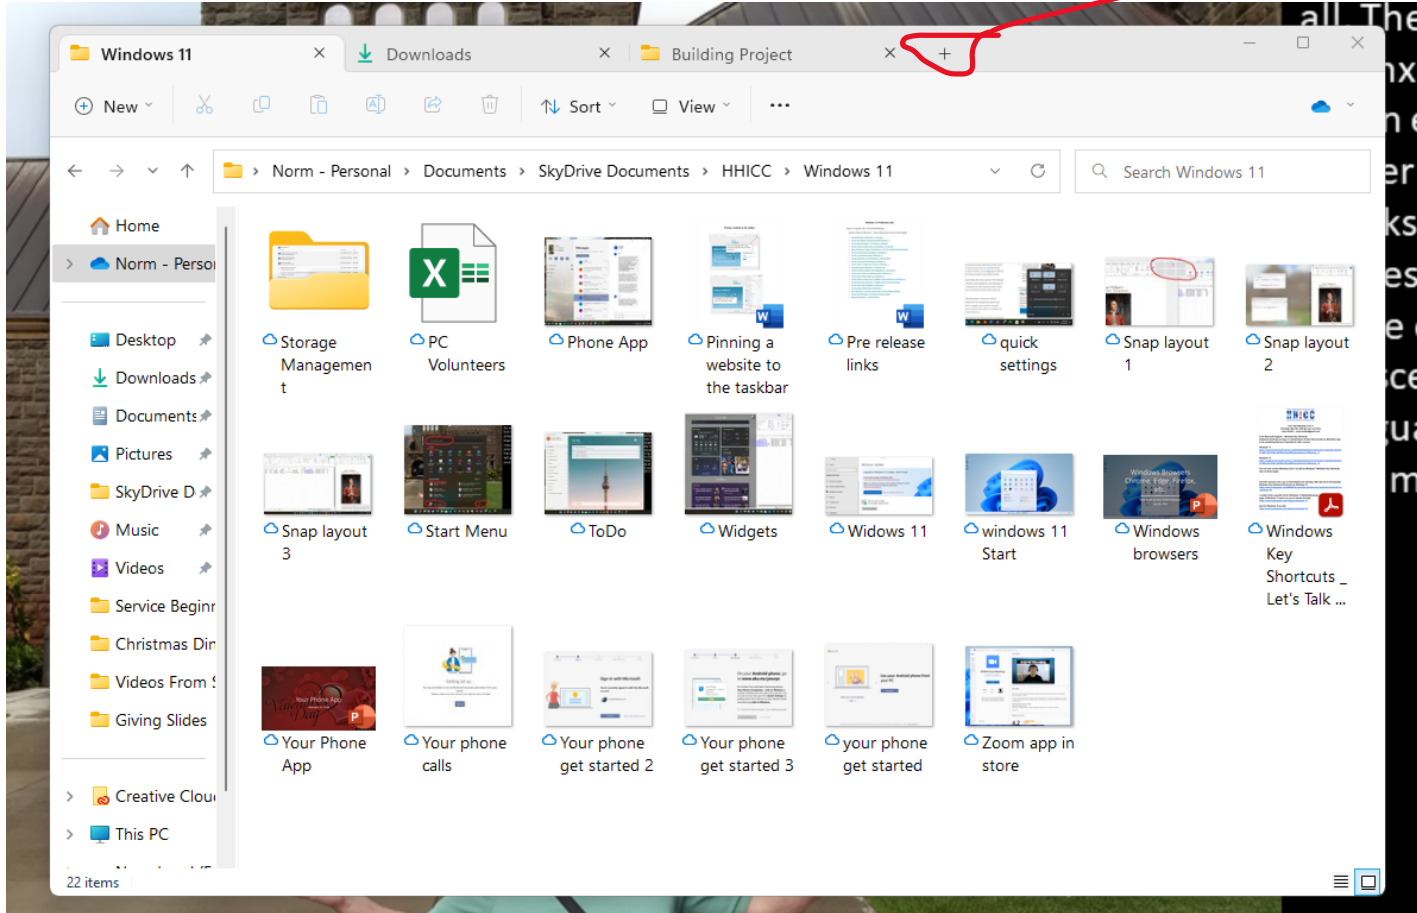

Finding a Setting

- Click on Start
- In the top line, type the setting you are searching for.
- Click on best search result

Tabs in File Explorer 2H22 Feature Update

Add a new tab by clicking on the + button

MUCH EASIER to manage folder contents!

When Should Members upgrade?

Unless you need one of the new features, wait!

If your PC is working fine, wait!

- Windows 10 will be fully supported through 2025 and probably longer.
- Office will run on Windows 10 and Windows 11.
- Windows 10 updates will slow down to just security, which can be a very good thing!

The longer Windows 11 is available, the more device features will be released – in November, 2023 there will be some amazing Windows 11 devices (Microsoft SQ4)

- The ARM advantage – integrating phones and laptops/tablets (5G and WIFI 6)
- The chip SoC advantage – smaller, lighter devices using much less power

PC Spec Guidelines for buying now

With AMD Processors – be sure to go with series 5000 (ie. 5000U)

With Intel Processors – be sure to go with 12th Generation

Light User: email plus web plus some documents

Processor = Intel I3 or Ryzen 3 or 5, Memory = 8 GB, ~~Hard Drive 500 GB~~ SSD = 128 GB

Economy User: email plus web plus watching videos plus home office work plus video conference (Zoom)

Processor = Intel I5 or Ryzen 5 or 7, Memory = 8 GB or 12 GB, SSD 256 GB

Heavy User: multiple email accounts, heavy office work, photo or video processing

Processor = Intel I7 I9 or Ryzen 7 or 9, Memory = 16 GB, SSD 500 GB

Good Economy PC

HP - Pavilion x360 2-in-1 14" Touch-Screen Laptop - Intel Core i5 - 8GB Memory - 512GB SSD - Natural Silver

Model: 14-ek0033dx **SKU:** 6502180
